

Report Kentucky Facilities with Foreign Ownership

In Bourbon, Clark, Fayette, Franklin, Jessamine, Madison, Scott, and Woodford Counties

October 7, 2011

Number of Facilities:	72
Total Full-Time Employment:	18,465

Introduction and Methodology

The Kentucky foreign investment reports provide a list of facilities (with 10 or more employees) normally associated with Cabinet programs designed to locate and retain industry. Most information is taken directly from surveys completed by each facility or from phone or personal contact with the facility. Survey information is collected on an annual basis. Some facilities do not fully complete the survey instrument and in some cases incorrectly complete surveys. Facility name, address, location, product or service, employment, ownership, and other information may change and often does change between annual survey attempts. While all attempts are made to capture changes between annual surveys from data provided by facilities, local economic development contacts, media announcements, and Cabinet programs designed to locate and retain industry, no guarantee can be made that changes will be discovered.

If information indicates foreign ownership, either direct or indirect, the facility is included on the Foreign Investment reports; a specific percentage of foreign ownership is not required. Multiple owners of a facility will be included on the report where applicable. The use of an asterisk (*) preceding an owner's name indicates direct ownership.

Disclaimer

The information provided herein by the Kentucky Cabinet for Economic Development is believed to be accurate but is not warranted and is for informational purposes only. While all attempts are made to insure the correctness and accuracy of information in this report and to make corrections and change errors brought to our attention, no representation or guarantee, express or implied, is made as to the accuracy of the information presented. Any information provided in this report is provided without assurances or warranties and should not be relied upon as fact. The Kentucky Cabinet for Economic Development assumes no liability for the accuracy of the information contained in this report.
